

# Corporate Overview

## Who is Systalex?

Leveraging over 30 years of mastery, this nimble small business excels in delivering both prime and sub-contracts. Our world-class team, enriched with 45 years of top-tier Federal Government experience and industry gurus, assures unrivaled performance. Lauded by customers and distinguished by our inclusive, diverse culture, we swiftly adapt and scale, navigating change with ease.

## What do we offer?

Experience the impact of synergy with Systalex. We blend business and technology to forge top-tier, quality-driven solutions. Our modern, result-oriented approach addresses complex challenges, spurring growth. We offer an array of services, from BizDevSecOps, Data Engineering, and Systems Architecture, Multi-cloud Services, Cybersecurity, and Organizational Consulting. Systalex is your key to unlocking cost-effective, tailored solutions and meeting your mission-critical needs.

## What sets us apart?

Our Organizational Change Consulting encompasses services from building streamlined teams to implementing flow frameworks.

Our Codeless Platform experience supports and enables non-tech users to create custom applications, allocating IT resources for higher priority tasks.

Our unique Application Evolutionary Transformation pairs business experts with engineers, delivering superior quality products at a faster pace.

**Choose Systalex as your trusted partner, and experience the difference of working with a company that is committed to your growth, success, and the realization of your mission objectives.**
